Feel good from the feet up

IOMI Footnurse® Socks made to care.

IOMI Footnurse® is a range of specialised healthcare socks that help manage symptoms that affect your legs and feet. All IOMI Footnurse® socks are available in a wide range of colours and sizes, for both men and ladies.

IOMI CUSHION FOOT DIABETIC SOCKS - Specially designed to manage the symptoms of diabetes and help prevent cuts, sores and infection. With Footnurse® Easy Stretch™, cushioned sole, smooth toe seam and extra-wide leg, plus CoolMax fibre and Sanitized™ ActiFresh.

GENTLE GRIP DIABETIC SOCKS - The style and comfort of Gentle Grip plus the healthcare benefits of a special diabetic sock. The extra-wide Honeycomb Top™ gently moulds to your legs to stay up all day long without pinching or leaving marks. A smooth hand-linked toe seam prevents nicks and sores that could lead to infection.

OEDEMA EXTRA WIDE SOCKS - If you suffer from oedema, lymphoedema, or fluid retention, these are the socks for you. Made from soft-touch cotton fabric with Footnurse® Easy Stretch™ to comfortably fit the contours of your legs and feet, no matter how wide they are.

ENERGISING SOCKS - Graduated compression technology can help support and promote healthy circulation to re-energise tired, aching and fatigued legs with a soft touch, comfort toe seam and knee high length.

FLIGHT SOCKS - To help reduce the risk of Deep Vein Thrombosis (DVT) in flight and other forms of extended travel.

LADIES IOMI GENTLE GRIP DIABETIC SOCKS

These socks are cosy without being too thick to wear indoors, and they stay up well despite being loose around the tops. Nice to find socks that don't leave ugly marks around the ankles! They come slightly higher up on the leg than usual ankle socks, which is nice too. Very pleased indeed, I would recommend them.

I have bought a dozen pairs of these socks recently as I have found them to be so comfortable. They are nice and long ankle socks. Although they do not have tight elastic around the top edge (which in other socks I find can leave marks on my legs) they do not fall down when worn.

The overall service was really efficient and prompt. I ordered these diabetic honeycomb top socks because I was suffering with marks on my legs! Just as advertised, these socks have a gentle grip and they are so soft and comfortable!

These socks are comfortable, fit really well and not tight around my legs! They also wash well. It was a quick despatch, my socks arrived within two days.

I love these socks! Very pleased, true to the picture online. I shall be ordering more!

I bought these socks for my Mum. She said that they are the most comfortable socks she's ever worn! She suffers with swollen legs and is so pleased that they do not dig into her skin.

I bought these socks for my husband, he is very pleased with them! They are very good quality socks feel beautifully soft and comfy. Good quality products and a super quick delivery!

The Gentle Grip website is easy to use with a good choice of payment methods, followed by a quick delivery service! (Same day dispatch). Item arrived neatly packed with a future discount voucher included. If you suffer with swollen ankles at the end of the day, these socks are for you. So comfortable to wear, I was amazed at the end of the day of wearing them to see no puffiness and no sign of a 'grip ring' around the ankles. They are really great value.

The product was well packaged and protecte. These were purchased for my brother in law. We both have had diabetic socks from IOMI before and are very satisfied with the quality. I intend to purchase more.

At last! Socks that do not dig in! I will be buying again!

Item is as described and arrived quickly! This is just what my husband wanted. Nothing available in local shops that is anywhere near this quality! I will purchase more in the future.

MENS IOMI GENTLE GRIP DIABETIC SOCKS

Over the years, I have tried so many different diabetic socks and I can honestly state that these are the best that I have ever bought. They are so comfortable and cosy it is a pleasure to wear them. Well worth the price and I will definately be having more of these socks!

LADIES IOMI CUSHION FOOT DIABETIC SOCKS

Over the years, I have tried so many different diabetic socks and I can honestly state that these are the best that I have ever bought. They are so comfortable and cosy it is a pleasure to wear them. Well worth the price and I will definitely be having more of these socks!

Product is exactly as described! Very comfortable and does not restrict! Service was efficient and fast too!

I have a big problem with most socks as lumpy seams across the toes drive me mad. I ended up wearing my shop bought ordinary socks inside out in an attempt to avoid the seams. Then I discovered 'diabetic' socks. This means no lumpy seams across the toes and the elastic won't dig into your legs. This brand is ideal for me and the quality of the socks are pretty good. So, even if you're not diabetic but just want a comfortable pair of socks, I can recommend these.

These socks are everything that I have been looking for! I used Sock Shop because the product was several pounds cheaper than most others but I also trusted the name to deliver my goods. They appear to be doing the job too!

My mum has large, swollen feet and legs due to low mobility. She has trouble finding socks that will fit. I got these as a present for her and she loves them. She says they're really comfortable and even I was surprised at how nice they felt to the touch. She said they're lovely and warm and it is nice to have some decent socks that fit. Well worth the money. Will be buying some more for her.

I have looked for diabetic socks for ages and these are perfect. I am prone to swelling and have a condition due my diabetes that requires seamless socks. They are so comfortable. Highly recommended will buy more.

I bought these socks for my husband because he has slightly swollen legs and he says that they are the most comfortable socks that he has ever worn! I will be ordering more.

Tried loads of different socks for my Dad who after having radiotherapy has been left with damaged lymph nodes that has left one leg much more swollen than the other. These are the only ones we've found that don't leave marks on his leg but still stay up. Very highly recommended.

Bought these socks for my husband who is diabetic and also suffers with swollen feet. He said that he would go as far as saying these are probably the best socks he has ever worn and I would highly recommend them even if you don't have a problem with your feet.

Only had the socks a few days, but they are just what I wanted. I suffer from fluid retention in my legs and other socks leave great indentations around the top of the sock. These socks are very comfortable and when I take them off my legs are unmarked. Thoroughly recommend to everyone.

MENS IOMI CUSHION FOOT DIABETIC SOCKS

I have been searching for years for socks like these. I live with fairly chronic pain from nerve damage and it sounds dramatic, but these socks have changed my life. Whoever designed these needs a medal. I know that people who have medical problems all have different needs and solutions for those problem, but for my situation these are so good. I ordered another set 24 hours after the first arrived.

LADIES ENERGISING SOCKS

Delighted to find 40 denier, opaque pop socks in a variety of colours. The bright navy is particularly good with jeans. The graduated compression and reinforced toe, sole and heel makes them comfortable to wear. I ordered more after receiving the first order. The sock is a perfect length and long enough for my feet!

These socks are brilliant and far better than a couple of other more expensive socks that I have purchased before. I am really pleased and would recommend.

Good fit and great value, I found that these have helped with Varicose Veins. I like that there is a choice of colours as well.

I was given these as a gift from my friend as I suffer with aching legs which I have been told is due to lack of support around my ankles. At first I was skeptical that a sock would be able to make any difference but after the first week, I could not go back now! I have already ordered some more in different colours.

This is exactly what I wanted! They fit like a glove, very happy with them.

I wear these compression socks underneath my jeans and they are perfect! They do the job and I can't believe how soft they are. Might have to buy some more.

My wife bought me these socks as I often complain about muscle pain and my feet can look quite swollen. I am so glad that she found these as they have made a massive improvement of the health in my legs.

I am so pleased with these socks! 5 stars from me and I would definitely recommend to someone who has achy legs.

These men's energising socks are really comfortable. I have the black pair but I think I will purchase the navy too!

I came across these socks when I was searching for ways which I can improve my aching ankles and feet. I read online that it can be due to poor blood flow, after doing some research I found these socks and sure enough, they have helped! I felt like I needed to write this review so that other people can be aware of the difference it makes.

Terrific support with excellent comfort tops. They do the job well. I also have other IOMI socks too and that is because I trust the brand! I will never buy a cheap pair of socks again.

MENS ENERGISING SOCKS

These socks are very good quality. They are fairly thick, soft and comfortable. I don't think that they are too tight, which gave the best support around my ankles. These are perfect for everyday, I can wear them to work and it gives me that boost that I lack. Would definitely recommend, just wish that there was more colours for me to choose from!

LADIES EXTRA WIDE OEDEMA SOCKS

I liked the fact that for the first time in 4 years I have been able to put on a pair of socks. I have Lymphedema and Lipoedema, and my legs and feet are extremely swollen. I haven't been able to buy a pair of socks that goes on with ease for over 4 years. These socks have totally transformed my life. Thank you Sock Shop.

I bought these socks for my elderly mum who has really swollen feet and ankles and I must say they are the best socks she has ever had. Yes they are a bit pricey but they were much easier to get on and much more comfortable to wear, no marks on her legs and stayed up all day. I tried to buy some similar ones, obviously due to the cost but I can honestly say I wasted my money doing so. I am going to be buying more of these socks.

These socks are perfect. I bought one pair for my elderly aunt who has incredibly swollen legs and feet. She had no shoes or socks that fitted so I offered to find something suitable. I stumbled across these and got her a pair. They fit her perfectly and they are very comfortable. They don't cut into her skin and don't leave any marks. I have bought her a second pair.

After buying countless packs of supposedly extra wide socks - which all dug into my legs badly, I purchased these. They are fantastic, comfortable and, unlike all of the others, don't constantly roll down! Taking them off at night reveals, not a single mark, Yes, they are expensive, but quality usually comes at a price.

These are wonderful socks, perfect for my disabled friend. She suffers with swollen legs, no other socks fit her. But these glide on with ease.

I have bought hundreds of pairs of socks for my 81 year old father who has large oddly shaped feet and Parkinson's and he finds it impossible to put any socks on. Whenever we have managed he complains that they are too tight. However, these socks are amazing and have brought him back a sense of independence! They are easy for him to put on and are so soft and comfortable. These socks are well worth the cost in my opinion. Finally my father is happy!

I have now purchased 3 pairs of these socks for my husband who has very swollen legs and feet due to illness, they are the best socks ever for him as there is no digging in, yet they stay up where they should be and also wash well.

Having tried, without any success, many High Street soft-top brands for my elderly father's swollen legs, I came across these whilst searching the internet in desperation. What a brilliant success they have been. They stretch and fit snugly but without pinching. They also wash well with no shrinkage. I trialled 2 pairs and then bought 8 more. They are expensive but they are worth every penny!

These wonderful socks are absolutely perfect! Very stretchy and comfortable. My husband has been in hospital and his feet and legs are so swollen so his regular socks don't fit. No digging in and they actually still fit comfortably!

MENS EXTRA WIDE OEDEMA SOCKS

Very well made. The fit is amazing. I treated my friend to these socks who suffers from Lymphoedema really badly, and sadly has not been able to wear socks for a few years, and really thought that he wouldn't be able to wear socks ever again. I wanted to find socks that would make his dream come true, and these have done just that. Not only does he have warm cosy feet, he actually sat and cried, because he never thought this moment would ever happen again for him. That just speaks volume for me. Thank you.

MEN'S & LADIES FLIGHT SOCKS

I often travel with work and have suffered with achy legs post flight. I have tried a few different flight socks over the years and nothing has seemed to do the job, but just as I was about to give up looking, I found IOMI Flight & Travel Compression Socks. They are reasonably priced and also very comfortable on, not too tight but still work. I wear them underneath my jeans as they are thin enough, so nobody can see them. I would definitely recommend these to anyone who suffers like myself!

I am delighted with these socks. The colour 'natural', which is what I bought, look as fine as a pair of 15 denier tights. They are comfortable and easy to put on. I wear compression socks every day to combat swollen ankles and have found them to keep the swelling under control. I would recommend to anyone.

This is the first time I've used support socks and first time ever, that I've not had swollen feet/ankles for my whole holiday! Great, will use every time now when travelling - good fit for me. Would recommend.

I need to wear these most days for a medical condition that requires lower leg, gentle compression. These socks are light and ideal for me, so I am able to wear them with leggings and jeans.

Great to find natural colour travel socks on here instead of the compulsory black ones. Just done a 10 hour flight in them they were comfortable and did their job, a great price too. Would highly recommend.

Having had foot surgery a few months ago I was nervous about taking a 7 hour flight. These flight socks were comfortable, strong and looked great. The reinforced soles meant I could get up and walk around comfortably.
